

Lower West Coast Background Document

CONTENTS **Background Document (Volume II)**

I.	Introduction	I-1
	Purpose and Scope	I-1
	Background Document Description	I-1
	Basis of Water Supply Planning	I-1
	Legal Authority and Requirements	I-3
	Water Supply Planning Initiative	I-3
	District Goals, Directives and Policies	I-3
	Public and Agency Participation	I-5
	LWC Water Supply Plan Advisory Committee	I-6
	LWC Newsletter	I-6
	Data Confirmation	I-6
	Planning Area Description	I-6
	Plan Boundaries	I-8
	Related Planning Areas	I-8
	Land Use	I-8
	Physical Features	I-10
	Population	I-11
	Evaluation of Water Supply Alternatives	I-12
		I-12
II.	Water Resources and System Overview	II-1
	Precipitation and Evapotranspiration	II-1
	Surface Water Resources	II-1
	Lakes, Rivers, and Canals	II-1
	Drainage Basins	II-1
	Drainage Districts	II-1
	Ground Water Resources	II-5
	Floridan Aquifer System	II-7
	Intermediate Aquifer System	II-7
	Surficial Aquifer System	II-9
	Consumptive Use Permitting	II-10
	Reduced Threshold Areas	II-11
	Areas of Special Concern	II-11
	Critical Water Supply Problem Areas	II-13
	Restricted Allocation Areas	II-13
	Water Treatment	II-13
	Potable Water Facilities	II-13
	Wastewater Treatment Facilities	II-13
		II-16
III.	Environmental Resources and Needs	III-1
	Inland Resources	III-1
	Wetlands	III-1
	Uplands	III-1
	Water Needs of the Inland Environment	III-5
	Wetland Water Supply Needs	III-6
	Upland Water Supply Needs	III-7
	Wildlife Water Supply Needs	III-8
		III-8

Lower West Coast Background Document

Coastal Resources	III-9
Estuarine Systems	III-9
Barrier Islands	III-10
Water Needs of the Coastal Environment	III-10
Outstanding Natural Systems	III-11
 IV. Demand Estimates and Projections	 IV-1
Overview of Demand Estimates and Projections	IV-1
Urban Demand	IV-3
Summary of Urban Demand	IV-3
Public Water Supply and Domestic Self-Supplied	IV-4
Commercial and Industrial Self-Supplied	IV-4
Recreation Self Supplied	IV-5
Agricultural Water Demand	IV-5
Summary of Agricultural Demand	IV-5
Citrus	IV-6
Citrus Nursery	IV-8
Sugarcane	IV-8
Tropical Fruit	IV-8
Vegetables	IV-8
Field Crops	IV-8
Sod	IV-9
Ornamental Nursery	IV-9
Cattle Watering	IV-9
 V. Water Conservation Measures and Supply Alternatives	 V-1
Water Conservation Measures	V-1
Mandatory Water Conservation Measures	V-1
Supplementary Water Conservation Measures	V-5
Water Supply Alternatives	V-9
Wellfield Expansion	V-9
Utility Interconnections	V-9
Wastewater Reuse	V-10
Surface Water Storage	V-11
Aquifer Storage and Recovery	V-11
Floridan Aquifer System	V-13
Seawater	V-14
Water Treatment Technologies	V-14
 VI. Analysis of Water Supply Issues and Alternatives	 VI-1
Resource Protection Criteria	VI-2
Wetland Protection Criterion	VI-2
Seawater Intrusion Criterion	VI-3
General Aquifer Protection Criterion	VI-3
Modeling Analysis of Resource Protection Criteria	VI-4
Ground Water Modeling Approach	VI-4
Demand Assumptions	VI-4
Alternative Modeling Scenarios	VI-6
Water Supply Alternatives	VI-8
Changes to Demand	VI-8
Source Changes	VI-9
Mitigation Banking	VI-11

Lower West Coast Background Document

Other District Implementation Alternatives	VI-16
Cooperative Actions	VI-16
Water Shortage Planning	VI-17
References Cited	REF-1
Glossary	GL-1

Planning Document (Volume I)

- Executive Summary**
- I. Introduction
- II. Modeling Results
- III. Conclusions and Recommendations
- IV. Summary

Appendices (Volume III)

- A. Selected Passages from the Florida Statutes and Administrative Codes
- B. County Land Use Maps
- C. Rainfall Frequency Analysis
- D. Ground Water Resources
- E. Potable and Wastewater Treatment Facilities
- F. Wetlands and Environmentally Sensitive Areas
- G. Methodology for Urban and Agricultural Demand Projections
- H. Factors Affecting Water Supply
- I. Water Conservation and Supply Alternatives
- J. Listing of LWC Water Supply Plan Advisory Committee
- K. Seawater Intrusion and General Aquifer Protection Criteria Levels Used in Modeling
- L. Public, Local, Government & Agency Comments

Lower West Coast Background Document

List of Tables

Table I-1.	Percent Land Use by Region	I-11
Table II-1.	Ground Water Systems in Collier County	II-8
Table II-2.	Ground Water Systems in Hendry County.	II-8
Table II-3.	Ground Water Systems in Lee County.	II-9
Table IV-1.	Overall Water Demands for 1990 and 2010 in the LWC Planning Area	IV-2
Table IV-2.	Public Water Supply and Residential Self Supplied Estimates and Projections for the LWC Planning Area	IV-4
Table IV-3.	Commercial and Industrial Self-Supplied Demand in the LWC Planning Area	IV-4
Table IV-4.	Landscape and Recreational Self-Supplied Demand in the LWC Planning Area (mgd)	IV-5
Table IV-5.	Irrigation Requirements for the Primary Irrigated Golf Course Acreage Projection in the LWC Planning Area	IV-5
Table IV-6.	Water Demands by Crop in the LWC Planning Area	IV-7
Table V-1.	Percentage of Crop Acreages Irrigated with Micro Irrigation Systems in 1990	V-8
Table V-2.	Estimated Well Costs for Aquifer Systems in LWC Planning Area	V-9
Table V-3.	Aquifer Storage and Recovery System Costs	V-12
Table V-4.	Lime Softening Treatment Costs	V-15
Table V-5.	Reverse Osmosis Operating Pressure Ranges	V-16
Table V-6.	Reverse Osmosis Treatment Costs	V-16
Table V-7.	Concentrate Disposal Costs	V-17
Table V-8.	Membrane Softening Treatment Costs	V-18
Table VI-1.	Mitigation Banking Sites in the LWC Planning Area	VI-14
